

EUGENE DOKYE ANOKYE

Software Engineer — Backend & Fullstack

yawanokye99@gmail.com · 0599012817 · Greater Accra, Ghana | [linkedin.com/in/edanokye](https://www.linkedin.com/in/edanokye) | github.com/eugeneanokye99 | edanokye.vercel.app

PROFILE

Full-stack software engineer with 5+ years shipping production systems in Spring Boot, Java, React, TypeScript, Django, and Node.js. Focused on clean APIs, fast interfaces, and maintainable code, with AWS Certified Cloud Practitioner credentials. Proven leadership in cross-functional agile teams, mentoring junior developers, and driving technical excellence.

WORK EXPERIENCE

National Service Personnel — Backend Software Engineer — Amali-Tech, Ghana *November 2025 – Present*

- Onboarded onto the backend team, developing hands-on proficiency in Java and Spring Boot while contributing to production features within an agile squad.
- Built key modules for the Amalitech Office Management System — including visitor management, request management, digital notice board, asset management, and attendance tracking.
- Contributed to ServiceHub, collaborating through daily standups, sprint planning, and retrospectives as part of an agile team.
- Delivered supporting frontend features in TypeScript, working closely with teammates across the stack.
- Brought strong communication and collaboration skills to cross-functional planning and code review.

Fullstack Mobile Developer — TechQuestExplorers, Remote *December 2024 – April 2025*

- Built scalable mobile UIs with React Native, translating Figma and Adobe XD designs into responsive, cross-platform interfaces.
- Developed CoolChop, a full-featured food delivery app with real-time order tracking, interactive maps, secure payments, and role-based access for users, riders, and vendors.
- Conducted unit and integration testing with Jest and Expo, ensuring smooth performance across Android and iOS platforms.
- Collaborated with backend developers to optimize API integration, reducing latency by 20%.

Lead Fullstack Web Developer — Arfric Ltd, Taifa *October 2023 – December 2024*

- Led a team of 3–5 developers building scalable B2B platforms that streamlined processes, reduced costs, and improved client outcomes.
- Refactored legacy systems using modern PHP and JavaScript practices, boosting performance and security.
- Delivered scalable web applications using React.js, PHP, and MySQL for education and food-delivery solutions.

IT Intern — Ga West Municipal Assembly, Amasaman *September 2023 – October 2023*

- Assisted in maintaining and updating internal databases and IT records to support smooth departmental operations.
- Supported troubleshooting of hardware and software issues, including system configuration and user support.
- Collaborated with the IT team to ensure proper network and system functionality for day-to-day municipal operations.

PROJECTS

Ballotsky (ballotsky.com)

- Secure pay-to-vote platform for contests and campaigns — nominate candidates, vote with real money via Paystack, and watch results update live.

Next.js · Firebase · Paystack

Shopyos (shopyosgh.com)

- Marketing platform helping businesses showcase products and connect with buyers in one place. Live on web and Android, with iOS in progress.

Next.js · Mobile · Marketing

SpendWisely ([live demo](#))

- PWA expense tracker for everyday users — connects to Gmail to auto-detect mobile money and bank transaction emails and logs spending with no manual entry.

TypeScript · PWA · Gmail API

ShiftSync (Backend) ([GitHub Repo](#))

- Backend for a multi-location workforce scheduling platform, handling availability, shift assignment, conflict detection, and async notifications.

Java · Spring Boot · REST

CPS – Felano Technologies ([live demo](#))

- Delivery service application handling order requests and dispatch for a growing logistics business.

TypeScript · Delivery · REST

Arkeseljuni ([GitHub Repo](#))

- Robust USSD application for event ticketing and voting, built for reliable access without a smartphone or app install.

USSD · JavaScript · Events

SKILLS

Languages: JavaScript, TypeScript, Java, Python, PHP, C#, C++

Frameworks: React.js, Next.js, React Native, Node.js, NestJS, Django, Angular, Spring Boot, Spring Security, Hibernate/JPA, Tailwind CSS

Databases: PostgreSQL, MySQL, SQL Server, MongoDB, Redis, Firebase

Cloud & DevOps: AWS, Docker, GitHub Actions, CI/CD pipelines, Nginx

Testing & Tools: Jest, JUnit, Postman, WebSocket, Git, GitHub, JIRA, VS Code

Architecture: RESTful APIs, GraphQL, JWT, Agile/Scrum

EDUCATION

BSc. Computer Science

Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana

September 2021 – September 2025

W.A.S.S.C.E (General Science)

Opoku Ware School, Kumasi, Ghana

November 2018 – October 2021

PROFESSIONAL TRAINING / CERTIFICATION

AWS Certified Cloud Practitioner — Amazon Web Services · Issued Jan 2026 · Expires Jan 2029

Google Project Management Professional Certificate — Google · Issued Aug 2026

Certificate in Splicing and OTDR Testing — Johvic Fibertech Solutions · Issued Feb 2025

VOLUNTARY / EXTRA-CURRICULAR ACTIVITY

- Asaase Yaa and Friends Network (Since 2023) — Supported the team in transporting donations and supplies to various destinations during outreach programs.
